Analysis by the Legislative Reference Bureau

Under current law, beginning in the 2018-19 school year, the Department of Public Instruction must make payments to school districts, independent charter schools, and private schools participating in a parental choice program that increased the amount the school district, independent charter school, or private school spent to employ, hire, or retain social workers over the amount spent by the school district, independent charter school, or private school to employ, hire, or retain social workers in the immediately preceding school year. Under the bill, DPI must make these payments to school districts, independent charter schools, and private schools participating in a parental choice program that increase spending on school counselors, school social workers, school psychologists, and school nurses. The bill also increases the funding for this categorical aid by \$17,000,000 in the 2018-19 school year.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
